

Feast! FINE FOODS

We have taken the time to calculate our average “food miles” for each of our branded products. This gives consumers an idea of how far their food has travelled from the grower to their plate.

All of the “food miles” listed here are to the CBD of Adelaide and thus will have slight differences if consumed in a restaurant or purchased from one of our stores. We have calculated accumulated miles from the farm(s)** to the works to the boning room to the store
